GitHub — LinkedIn

Summary

B.Tech student (CGPA 9.52) targeting AI & Data roles. Skilled in **Python, Pandas, NumPy, Scikit-learn, LLMs, LangChain and RAG**, with strong **DSA** and a foundation in **Linear Algebra, Probability and Statistics**. AWS and Azure AI certified.

Education

KL Deemed-to-be University, Hyderabad *2023 – 2027*
B.Tech, Electronics and Communication Engineering (VLSI), Computer Science Focus — CGPA: **9.52**

Excellencia Junior College, Intermediate (MPC), 97% *2021 – 2023*

Sri Sai Public School, ICSE, 93% *2021*

Skills

Languages: Python, Java, C++, SQL, C
AI/ML: Supervised Learning, Classification, Random Forest, Scikit-learn, Feature Engineering, Model Evaluation
GenAI: LLMs, LangChain, RAG, Embeddings, Vector Databases, Unstructured Data Processing
Data: Pandas, NumPy, Matplotlib, Data Cleaning, REST APIs, Streamlit
Core: Data Structures, Algorithms, OOP, Operating Systems, Linear Algebra, Probability, Statistics
Tools: VS Code, Jupyter, Git, GitHub, Postman, AWS, Azure

Experience

AI Intern, Edunet Foundation *Jun – Aug 2025*

- Built a **Random Forest** classifier in Scikit-learn; improved accuracy through feature engineering.
- Cleaned and analyzed large census data using **Pandas and NumPy** in Jupyter.
- Deployed a Streamlit app for real-time predictions; worked with a distributed team using Git.

Projects

Document Q&A Agent (RAG) *Python, LangChain, LLM API, FAISS, Streamlit*

- Built a RAG pipeline over unstructured PDFs: parsing, chunking, embeddings and vector retrieval.
- Used an LLM to generate context-grounded answers; deployed as a Streamlit app.

GitHub Star Predictor *Python, Pandas, Scikit-learn, GitHub REST API*

- Collected 63K+ repos via REST API with rate-limit handling; cleaned noisy data.
- Trained Logistic Regression and Gradient Boosting models (ROC-AUC 0.77) on 90% imbalanced data without leakage.

PayGrade AI – Income Predictor *Python, Scikit-learn, Streamlit*

- Trained a Random Forest model on census data and deployed it as a Streamlit app.

Gamified Performance Feedback Agent *Python, Streamlit, Pandas, NumPy*

- Built an OOP KPI tracker with points, badges, levels and a live dashboard.

Certifications

AWS Cloud Practitioner — Azure AI Fundamentals — Java (NPTEL) — ServiceNow CSA — ServiceNow CAD

Achievements

- Solved 450+ DSA problems (**Super Coder**); 2nd Place, Dev Rush (TechVersse), GDG KLH University.
- Participated in Adobe India Hackathon, Flipkart Grid, Tata Ideathon, TCS CodeVita.
